About us

At Pros Decor, we redefine contemporary elegance with surfaces that radiate sophistication and style. Our collections transform any space into a masterpiece, offering sleek, polished finishes that elevate every room. From glossy kitchen cabinets and chic living room pieces to luxurious bedroom wardrobes, our designs bring modern glamour to life. Imagine your home, office, or commercial space adorned with stunning, high-gloss furniture that reflects both light and luxury. Whether it's a serene apartment, a bustling showroom, or a stylish reception, Pros Decor creates environments where beauty and functionality harmonize perfectly.

In every project, we prioritize aesthetic appeal, ensuring that each piece not only serves its function but also becomes a focal point of beauty. Our designs are meticulously crafted to enhance the visual harmony of any space, blending modern trends with timeless elegance. Whether it's a minimalist apartment or a grand office, Pros Decor infuses each environment with a refined style that captivates and inspires. We believe that true design excellence lies in the details, where every surface, colour, and texture is thoughtfully chosen to create a cohesive and visually stunning ambiance.

GENERAL USE & CARE GUIDE

Our laminates are crafted with both aesthetics and durability in mind. When used as directed and with proper care, they are designed to maintain their beauty and functionality for years to come.

LAMINATES

- **Cleaning** - Use water and a clean, non-abrasive cloth for regular cleaning.
- **Stubborn Stains** - For tougher stains, apply mild household cleaners like Colin, and gently wipe with a non-abrasive cloth.
- **Avoid Harsh Chemicals** - Refrain from using abrasive liquid cleaners, bleach, or harsh chemicals, as these can damage the laminate surface.
- **Heat Exposure** - Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30°C may damage the surface.
- **Proper Use** - Avoid using the laminate for unintended purposes (e.g., ironing, chopping, hammering, or exposing to open flames).
- **Outdoor Use** - Not recommended for outdoor applications where exposure to direct sunlight and harsh weather conditions is likely.
- **UV Rays** - Direct exposure to UV rays may deform the laminate.
- **Gloss Surfaces** - These are best suited for vertical applications only.
- **Avoid Solvents** - Do not use thinner, toluene, or similar solvents, as they may cause discoloration.
- **Storage** - Store laminates at temperatures below 30°C.
- **Compliance** - Our laminates conform to internationally recognized technical standards.
- **Thickness Tolerance** - Laminates have a thickness tolerance of +/-10%.
- **Protective Film** - Ensure the protective film is peeled off after installation.
- **Humidity Concerns** - Acrylic can be compromised when bonded in extremely humid conditions.
- **Uneven Substrate** - Debonding may occur in certain areas due to an uneven substrate surface.
- **Adhesive Issues** - Using water-based synthetic resin adhesives, other than PEVA (Polyethylene Vinyl Acetate Co-polymer), can affect bonding quality.
- **Moisture Loss** - Substrates losing moisture after installation can lead to bonding failures.
- **Insufficient Pressure** - Inadequate pressing during the bonding process can result in poor adhesion.
- **Oversized Sheets** - The use of oversized acrylic/PVC laminate sheets (over 8 ft x 2 ft) can pose installation challenges.

Facts

Acrylic are bonded in extremely humid conditions

Use of water base synthetic resin adhesive any other the PEVA (Polyethylene Vinyl Acetate Co-polymer)

When substrate loses moisture after installation

Debonding in certain areas because of uneven substrate surface

Insufficient or lack of pressing during the bonding period of laminate

Use of extremely large acrylic/PVC laminate sheets (more than 8 ft x 2 ft long)

To avoid de lamination / air bubbles in between ply and laminate the above steps should be taken care of.
Bonding of acrylic sheets shouldn't be completed under high humidity

Reasons for air bubble formations on Acrylic Sheets

Limited Warranty

Our laminates are crafted with both aesthetics and durability in mind. When used as directed and with proper care, they are designed to maintain their beauty and functionality for years to Our products are crafted to be free of defects and, when handled and installed correctly, are designed to meet or exceed manufacturing specifications. We strongly recommend that all products be thoroughly inspected prior to installation. Our warranty does not cover defects or non-compliance arising from improper use, handling, or any other causes, including but not limited to:

- Improper handling, transportation, or storage
- Incorrect installation
- Misuse or unintended use of the products
- Inadequate maintenance
- Exposure to extreme temperatures
- Unauthorized modifications
- Use in outdoor environments
- There will be no guarantee or exchange under any circumstances
- color variations in products from different batches are possible
- We recommend using products from same batch to avoid color variations
- This brochure is for presentation purpose only. Actual colors may differ.

- Exposure to direct sunlight can gravely affect the laminate's appearance
- Use of inferior or sub-standard dipped plywood or dipped lipping patti, which may chemically react the adhesive.
- Prolonged exposure to high temperature (above 300C-350C)
- If hot cookware or utensils are directly placed on the laminate
- To avoid the inside cracks & stretch line Do not store acrylic sheet in roll form.

Disclaimer

- Do not use plywood with high moisture content
- Do not use ply with uneven surface
- Avoid using interior-quality adhesive
- Apply sufficient pressure
- We do not recommend pasting of sheets on the printed/branding area of the plywood
- Don't use synthetic rubber adhesives such as SR / Jat Pat, Bostic, Heatex, Etc.
- No Guarantee & No Exchanges Under any Circumstances
- Colour Variations may occur between Different Batches
- Use the same batch Material to avoid Colour Inconsistencies
- Actual Colours of Laminate Sheets may vary from Brochure Images
